RULE 19: IMPRACTICAL PICK-UP OR DELIVERY AND AUXILIARY SERVICES

- It is the responsibility of the shipper to make shipments accessible to carrier or accept delivery from carrier at a point at which the road haul vehicle may be safely operated.
- When it is physically impossible for the carrier to perform pick-up of shipment at origin address or to complete delivery of shipment at destination address with normally assigned road haul equipment, due to the structure of the building, its inaccessibility by highway, inadequate or unsafe public or private road, overhead obstructions, narrow gates, sharp turns, trees, shrubbery, the deterioration of roadway due to rain, flood, snow, or nature of an article or articles included in the shipment, the carrier shall hold itself available at point of pick-up or tender delivery at destination at the nearest point of approach to the desired location where the road haul equipment can be made safely accessible.
- Upon request of the shipper, consignee or owner of the goods, the carrier will use or engage smaller equipment than its normal road haul equipment or provide extra labor for the purpose, if possible of accomplishment, or transferring the shipment between the residence and the nearest point of approach by the carrier's road haul equipment. Charges for this auxiliary service to cover labor and additional vehicle (if used) will be as provided and shall be in addition to all other transportations or assessorial charges. The local rates provided in the tariff will be used to calculate the labor and vehicle charge for auxiliary service.
- If the shipper does not accept the shipment at nearest point of safe approach by carrier's road haul equipment to the destination address, the carrier may place the shipment, or any part thereof not reasonably possible for delivery, in storage at the nearest available warehouse of the carrier, or, at the option of the carrier, in a public warehouse, subject to a lien for all lawful charges. The liability on the part of the carrier will cease when the shipment shall be considered as having been delivered.

- Transportation charges to cover the movement of shipment or part thereof from point which it was originally tendered to warehouse location, shall be computed on bases of weight of shipment of that part of shipment stored in warehouse, subject to applicable rate as provided in tariff from point at which it was originally tendered. All accrued charges of the shipment or any part thereof shall be due and payable upon delivery of same, to the warehouse. Any subsequent movement from warehouse shall constitute a new shipment.

RULE 20: **COMMODITY DESCRIPTION**

- The classification of property to which rates, rules and regulations apply to that class of property designated by the Interstate Commerce Commission in Ex Parte No. MC-19 as a commodity under the following description:
 - * **HOUSEHOLD GOODS.** This group includes personal effects and property used or to be used in a dwelling and similar property if the transportation of such effects or property is:
 - a. Arranged and paid for by the householder, including transportation of property from a factory, or store when the property is purchased by the householder with the intent to use in his or her dwelling.
 - b. Arranged and paid for by another party. All property transported under the commodity description as set forth above, shall be subject to the minimum weights, rates, and charges, as set forth in this tariff , or as amended.

FUEL COST PRICE ADJUSTMENT (SURCHARGE)

The fuel surcharge to be charged on shipments 30 miles or less will be a flat \$30.00 per truck per day.

The following percentage Fuel-Related Cost Price Adjustment (Surcharge) will apply on line-haul transportation charges on shipments that are 31 miles or more and transportation charges on shipments picked up and delivered into storage-in-transit, as described below:

1. One the first Monday of each calendar month, the South Carolina average price per gallon of diesel fuel will be determined.
2. If the first Monday of the month is a federal holiday, the price will be determined based on the price available on the next subsequent business day (Tuesday).
3. The fuel price obtained will then be indexed based on the fuel price/ Adjustment factor matrix set forth in this item to determine the Fuel Cost Price Adjustment that will become applicable on the fifteenth (15th) day of the month. The adjustment determined will apply for shipments loaded beginning on the 15th of the month and remain in effect through the 14th day of the subsequent following month starting from the effective date of this item.

*For example, if the reported price of self-service diesel fuel determined on Monday, June 5, 2000 is \$1.259 per gallon, a two (2%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of June 15, 2000 through July 15, 2000. Then, if the reported price of diesel fuel on Monday, July 3, 2000 increases to \$1.379 per gallon, a three (3%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of July 15, 2000 through August 14, 2000.

4. To determine the Fuel Coast Adjustment amount to apply, multiply the applicable line-haul transportation charges as determined in accordance with the applicable transportation rate schedule, and the applicable pickup and delivery transportation charges on the Storage-in-Transit shipments as determined in accordance with this tariff, by

the percentage of Fuel Cost Adjustment Factor. The resulting charge is in addition to all other applicable transportation charges.

For example, if the applicable line-haul transportation charge is \$1,080.00 a two (2%) percent Fuel Cost Adjustment Factor would be \$21.60.

When the DOE Fuel Price per gallon reported on the first Monday of the month is:	The Fuel Cost Adjustment Factor that becomes effective on the 15 th day of the same month is:

- Note 1: If the DOE fuel price per gallon exceeds \$4.999, the twenty-four (24%) percent fuel surcharge herein, will be increased by an additional one (1%) percent for every fifteen (\$0.15) cents (or fraction thereof), per gallon increase in the price above \$4.999 per gallon.
- Note 2: notwithstanding any other provisions of the tariff, the Fuel Cost Adjustment Factor WILL APPLY to transportation charges applicable on storage-in-transit shipments when such shipments are delivered to or removed from the storage-in-transit location during the period that the Fuel Cost Adjustment Factor is in effect.
- Note 3: The Fuel Cost Adjustment **WILL BE SHOWN SEPARATELY** from the line-haul revenue on carrier transportation documents for the purpose of identifying the amount as special fuel-related revenue.
- Note 4: Fractions obtained in the calculation of the Fuel Cost Adjustment Factor will be disposed of as provided in this tariff.
